7. Do you have additional feedback for this attending?

Dr. Pesek was great during my rotation. He was always willing to teach including scheduled weekly lectures. He has a great bedside etiquette. He wants us to learn and take responsibility for our patients. He made clinic enjoyable and efficient.

I appreciate the time that Dr. Pesek takes to teach. I always learn a lot from him! His patients and their families love him and it doesn't take long to see why!

I enjoyed working with you. Thank you for taking the time to teach!
