

Dr. \_\_\_\_\_'s List of Referees for Promotion

Paul Bachner, MD  
University of Kentucky  
[bachner@email.uky.edu](mailto:bachner@email.uky.edu)

Dr. Bachner and I know each other through service to the College of American Pathologists (CAP). Dr. Bachner has been the Director of Laboratories at the University of Kentucky since 1993. He is former chair of the Department of Pathology and he chairs the CAP Accreditation Committee. Dr. Bachner can speak to my clinical and administrative contributions as director of the molecular diagnostics laboratory and now as director of laboratories. He can also speak to my national reputation within the CAP.

Karen Kaul, MD, PhD  
Northshore University Health System  
[kkaul@northshore.org](mailto:kkaul@northshore.org)

Dr. Kaul and I know each other through our mutual service to the Association for Molecular Pathology (AMP) and work on the American Board of Pathology (ABP) Molecular Genetic Test Development Advisory Committee. Dr. Kaul is a trustee of the ABP and is the current chair of the Department of Pathology at Northshore University Health System. Dr. Kaul is a former pathology residency program director and a former director of a molecular pathology laboratory. As such, she is well positioned to speak to my administrative, clinical, and educational contributions as well as my service to our specialty at the national level.

Diane Persons, MD  
University of Kansas Medical Center  
[dpersons@kumc.edu](mailto:dpersons@kumc.edu)

Dr. Persons and I first met when I served on the CAP Cytogenetics Resource Committee which she chaired. As a current director of a clinical cytogenetics laboratory, she can speak to my clinical, administrative contributions; the subspecialty fields of molecular genetic pathology and cytogenetics overlap. Also, Dr. Persons is a former pathology residency program director and can speak to my educational and administrative efforts in this role.

Suzanne Powell, MD  
Houston Methodist Hospital  
[spowell@houstonmethodist.org](mailto:spowell@houstonmethodist.org)

Dr. Powell and I have gotten to know each other at the national Pathology Residency Program Director annual meetings and through our mutual service to the CAP. Dr. Powell is a leader among our specialty's program director group and is able to speak to my educational and administrative contributions in this position. She can also address my national reputation and service to professional organizations.
